About the Wananga sector

The three wānanga are designated under the Education Act 1989 as unique organisations who offer quality education based on Māori principles and values.

There is a significant difference in size and offerings between the wānanga. Nearly 60% of all students enrolled at wānanga are Māori.

The nature of enrolments at a specific wānanga will influence its performance. For example, part-time and extra-mural students often have work or family commitments and cannot devote as much time and energy to their students. They may also have different study goals.

An increase in enrolments in lengthy qualifications in 2010 may lower some TEOs' [qualification completion rate](#).

Government expectations of the Wananga sector

The government expects wānanga to:

- Create and share mātauranga Māori that contributes to whānau, hapū and iwi prosperity, and New Zealand's economic, social, cultural and environmental development
- Make an increasing contribution to sector-wide leadership through advancing mātauranga Māori
- Enable students to complete a range of sub-degree, degree and postgraduate qualifications, with clear study paths to higher levels of learning

Tertiary Education Strategy

The Tertiary Education Strategy calls for better performance from the tertiary education sector as well as raising achievement for all learners under 25, and for Māori and Pacific learners.
