### About the University sector

In 2011 the TEC funded eight universities, through Student Achievement component funding, for fewer than 3,000 to over 28,000 equivalent full-time student places.

The nature of enrolments at a specific university will influence its performance. For example, part-time and extra-mural students often have work or family commitments and cannot devote as much time and energy to their studies. They may also have different study goals. For example, Massey University has a large extra-mural roll.

An increase in enrolments in lengthy qualifications in 2011 may lower some TEOs' [qualification completion rate](#).

Lincoln University's results are not necessarily comparable to previous years given the merger of Lincoln University with Telford Rural Polytechnic on 1 November 2011.

### Government expectations of the University sector

The government expects universities to:

- Enable a wide range of students to successfully complete degree and postgraduate qualification
- Undertake internationally recognised research
- Create and share new knowledge that contributes to New Zealand's economic and social development and environmental management

Universities are expected to do more than teaching and learning; they also have an important research role. However, the performance information presented here does not include information about research.

### Tertiary Education Strategy

The Tertiary Education Strategy calls for better performance from the tertiary education sector as well as raising achievement for all learners under 25, and for Māori and Pacific learners.

### Context

Number of students in total: 156,522

Number of equivalent full-time student places: 117,928

Student ethnicity*		Level of study	
European	69%	Level 1-2	0%
Māori	10%	Level 3-4	2%
Pacific	6%	Level 5-6	2%
Asian	20%	Level 7-8	86%
Other	7%	Level 9-10	10%

\*Total may exceed 100% as some students identify with more than one ethnicity.
