

Quick Guide Post-Study Outcomes for Young Graduates App

This app allows you to take an in-depth look into recent data on employment outcomes and median earnings for people under 25 who completed a tertiary qualification in 2010/11, 2012/13, and 2015/16.

The data uses Broad, Narrow, and Detailed New Zealand Standard Classification of Education (NZSCED) classifications to identify the subject areas people studied and includes the level of study completed (Certificate, Diploma, Degree etc.)

This app is intended for use with the Post-Study Outcomes at TEO Level App

Examples of what you can discover

- Median incomes by NZSCED and for people who completed tertiary qualifications one, three and five years before the 2016/2017 tax years.
- Employment outcomes by NZSCED for people who completed a tertiary qualification one, three and five years before the 2015/2016 calendar years.
- Median income figures for people who completed qualifications at different levels of study.
- The number of people completing tertiary study at different levels and in subject areas.

Things to note

- The number of people completing tertiary qualifications is rounded according to Statistics New Zealand's rounding rules: numbers less than 20 are rounded to the nearest 3, numbers 20 to 100 are rounded to the nearest 5, numbers 100 to 1,000 are rounded to the nearest 10, and numbers above 1,000 are rounded to nearest 100.
- Learners who were in receipt of a disability benefit or in corrections for any period within the outcome year are excluded from the data.

Information provided by each sheet

Provides information on median incomes, employment rates and outcomes by detailed NZSCED

Provides information on median incomes, employment rates by NZSCED

Provides the number of learners in the dataset at broad, narrow and detailed levels

These three sheets are available for:

- learners who completed in 2014/15
- learners who completed in 2012/13
- learners who completed in 2010/11

Provides information on median incomes and job seeker rates over time.
